

Quantum Computing and Sensing for Weather and Climate Applications Workshop

May 13-15, 2026 in Boulder, CO

Scientific Organizing Committee

Reuben Demirdjian (co-chair), Naval Research Laboratory

Annarita Giani (co-chair), GE Vernova

Marlou Slot, CU Boulder

Aneesh Subramanian, CU Boulder

Swamit Tannu, University of Wisconsin-Madison

Felix Tennie, University of Oxford

Karl Thibault, University of Sherbrooke

Exploring the latest
advancements in quantum
technologies for applications
in weather and climate
