

# Confronting Earth System Model Trends with Observations

The Good, the Bad, and the Ugly

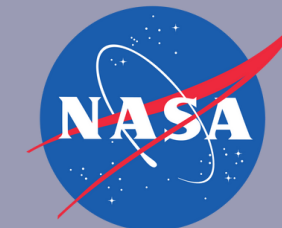

March 13-15, 2024 in Boulder, CO

## Scientific Organizing Committee:

Tiffany Shaw, co-chair, The University of Chicago  
Isla Simpson, co-chair, NCAR  
Paulo Ceppi, Imperial College London  
Amy Clement, University of Miami  
Erich Fischer, ETH Zurich  
Kevin Grise, University of Virginia  
Angie Pendergrass, Cornell University  
James Screen, University of Exeter  
Tim Woollings, University of Oxford  
Robb Jnglin Wills, ETH Zurich

*Comparing historical trends in Earth system models with observations to identify and understand where models are performing well and poorly to focus the community on where more work is needed to ensure credible projections moving forward. Supported by:*
