

# Ocean Model Development, Data-driven Parameterizations, and Machine Learning in Ocean Models of the Earth System

A Joint CLIVAR Ocean Model Development Panel and COMMODORE Workshop

September 9-12, 2024, at NSF NCAR Mesa Lab in Boulder, Colorado

A workshop to bring together the relevant communities to discuss ocean model developments, data-driven parameterizations, and machine learning in numerical ocean general circulation and climate/Earth system models.

## Scientific Organizing Committee:

Gustavo Marques (NSF NCAR)

Alistair Adcroft (Princeton University)

Florian Lemarie (INRIA)

Julie McClean (Scripps/UCSD)

Gokhan Danabasoglu (NSF NCAR)
